COSTAIN

# More for Less - Introduction

Stuart Cordier – Operations Director A-one+

- Why
- How
- Examples

# More for Less - Why

- The Client encourages it
- The Taxpayer wants it
- Greener
- More efficient
- If we don't – somebody else will

# More for less - How we do it

- Innovation
- Use less
- Do more
- Time (do it quicker)

# Innovation

- Surfacing – why use 10mm? – Use 6mm
- Thinner w/c – we need better bitumens
- Bitumen alternatives?

# Using Less

- Thickness of surfacing
- Make the surface last longer

# Doing more

- Maximise Closures – do more work
- Lay faster
- Stop patching – Lay long lengths

# Time

- Work in the daylight
- Expand the hours
- Effective Programming
- Co-ordination of Tasks

# Examples

- Microville – 6mm wc

# Examples

- Microville – 6mm wc
- Longitudinal Joint Repair – another 5years?

# Examples

- Microville – 6mm wc
- Longitudinal Joint Repair – another 5years?
- Barrier Re-use

# Examples

- Microville – 6mm wc
- Longitudinal Joint Repair – another 5years?
- Barrier Re-use
- Foam Bitumen re-cycling

# Examples

- Microville – 6mm wc
- Longitudinal Joint Repair – another 5years?
- Barrier Re-use
- Foam Bitumen re-cycling
- Lowering speed limits on x-overs

# Examples

- Microville – 6mm wc
- Longitudinal Joint Repair – another 5years?
- Barrier Re-use
- Foam Bitumen re-cycling
- Lowering speed limits on x-overs
- Full closures rather than contra-flows

# Examples

- Microville – 6mm wc
- Longitudinal Joint Repair – another 5years?
- Barrier Re-use
- Foam Bitumen re-cycling
- Lowering speed limits on x-overs
- Full closures rather than contra-flows
- Repave instead of 2- course

Thank you for Listening
