PROGRAMME

- 09.45 **Registration and coffee**
- 10.10 **Introduction Address**
- 10.15 **Colloid Aspects of Cosmetic Formulations with Particular Reference to Polymeric Surfactants**
Professor Tharwat Tadros, *Cosmetic Industrial Consultant, UK*
- 11.00 **Coffee**
- 11.20 **Inorganic Sunscreen Actives: Optimising Performance with Colloid Science**
Dr Lorna Kessell, Dr Ian Tooley, Mr Ben Naden, *Uniquema, UK*
- 11.50 **Factory Aspects of Colloids in Cosmetics**
Dr Robert J W Hefford, *Independent Cosmetic Advice Ltd, UK*
- 12.20 **Lunch**
- 13.50 **Emulsions and Foams: Prying into their Structure**
Professor Terence Cosgrove, *Bristol University, UK*
- 14.20 **Sunscreens with Enhanced UVA Protective Capabilities: The Applications of Doped Nanoparticles**
Mr Jonathan Stott, *Oxonica Ltd, UK*
- 14.50 **Rapid Characterization of Emulsions for Emulsifier Selection, Quality Control and Evaluation of Stability using Multisample Analytical Centrifugation**
Dr Titus Sobisch, *L.U.M. GmbH, Germany*
- 15.20 **Coffee**
- 15.40 **Novel Fluid Gels for the Cosmetic Industry**
Professor Peter Williams, *Centre for Water Soluble Polymers, North East Wales Institute, UK*
- 16.10 **Structured Fluids and their Application in Home and Personal Care Applications**
Bernice Ridley, *Ciba Specialty Chemicals, UK*
- 16.40 **Nanotoxicology**
Dr C Vyvyan Howard, *University of Liverpool, UK*
- 17.10 **Closing Remarks**

AIMS OF THE CONFERENCE

In this meeting renowned experts from academia and industry in the UK and worldwide will describe important aspects of colloid and interface science and nanotechnology relating to the cosmetic industry, providing both background information as well as more recent findings. The meeting will cover new raw materials, formulating tools, dispersion and emulsion science, processing and engineering, characterisation and fundamental understanding of cosmetic and personal care products.

The meeting is aimed at anyone interested or working in the cosmetic and colloid fields in both industry and academic capacities. It should be valuable to anyone working in one of these fields who is interested in furthering their knowledge in the other, whilst also being informative to experts familiar with both fields. In addition, those working in the related areas of cosmeceuticals and pharmaceuticals should benefit.

To encourage and support the interchange of information, knowledge and opinion between individuals, businesses and other organisations interested in any aspect of the development and application of chemistry and related sciences throughout the world

The Society of Chemical Industry (SCI) is an interdisciplinary network connecting industry, research and consumer affairs at all levels throughout the world. Founded in London in 1881 and New York in 1894, SCI provides opportunities for forward-looking people in the energy, water, agriculture, food, pharmaceuticals, materials, construction, and environmental protection sectors to exchange ideas and gain new perspectives on markets, technologies, strategies and people.

To find out more about this unique society, tick the box on the form overleaf or contact:

The primary aim of the SCS (Society of Cosmetic Scientists) is to promote the science that underlies cosmetics and personal care products.

Application forms and further information on SCS membership can be obtained from the website www.scs.org.uk or contact the SCS Secretariat.
