12 April

Day of Science and Careers	16 April
Catalysis and Synthesis using Cheaper Metals	18 April
Processing Lignocellulosic Biomass	18 April
Young Scientist Competition 2012 – South East	19 April
Nanotechnology - Transforming Medicine in the Next Decade? (new date)	19 April
Young Food Scientist Competition - North	25 April
Insect Decline: the causes and the role of agriculture in mitigation	25 April
Using Life Cycle Assessment to grow your business	25 April
23rd Regional Postgraduate Symposia on Novel Organic Chemistry - South	26 April
Advances in Synthesis and Medicinal Chemistry	1 May
Developing Highly Profitable and Sustainable Products from Organic Resources	2 May
What can DNA do for you?: DNA technology and applications	3 May
Why the evolution of humans is inevitable	3 May
Addressing Future Global Megatrends through Sustainable Chemical Processing	10 May
The Inner Beauty of Crystals - free event, preceded by AGM	10 May
Liverpool and North West Group AGM	11 May
Candidate to Market	16 May
Sir John Beddington - A Sustainable Future for Food and Farming - free public evening lecture	16 May
Construction Materials Group AGM	17 May
Young Researchers' Forum	17 May
Protein Kinase 2012, Cambridge. Earlybird till 22 April	21 - 22 May
BioResources AGM	22 May
Food Group AGM	23 May
Food For Thought 2012	23 May
Irish Adhesions, Surface Coating and Composites Conference 2012, Limerick	24 May
Past Conference Papers	
Conference feedback form	
Meeting Rooms at SCI

[Awards:](#)

Day of Science and Careers! Short talks by SCI Scholars on their research

College of Scholars

Penelope Turner reports from the ACS, Fall 2011

SCI Awards in 2012

Pablo Brito-Parada reports on the 5th International Flotation Conference

Forums:

SCI's AGM 4 July

Internship at Francis Crick Inst, London

Report on Scientific Wine Tasting, 23 March

Who are the major Nitric and Sulphuric Acid Manufacturers in the UK?

Rotational PhD in plant science and microbiology at JIC

Sir John Beddington talk launches new public lecture series
