Andy Ward - SABIC

Andrew Ward has held the role of Business Science Specialist at SABIC since 2002, and more recently for SABIC UK Petrochemicals since 2006. In his current role Andrew is responsible for catalyst selection and operational optimisation for SABIC UK's petrochemical plants. Andrew specialises in Industrial catalysis and is an expert in petrochemicals and fertiliser production technologies.

SABIC is a global leader in chemicals headquartered in Riyadh, Saudi Arabia. They identify and develop opportunities in key end markets such as electrical and electronics, transportation, medical devices, construction, packaging, agri-nutrients and clean energy.

Prior to his work at SABIC Andrew was a Technical Product Manager at ICI Syntex for 13 years, going onto become Project Manager before he left ICI Syntex in 2002.

Andrew was a member of ASPECT Programme Committee, the IRSE's flagship technical Conference, held every 2 years at locations around the world. He also gained his degree from the University of Dundee.
