## Dr Fiona Williams - Procter & Gamble

Fiona Williams is the R&D Director for Procter & Gambles' pan-European Connect & Develop programme. This role involves partnering with academia, institutes and suppliers to develop new science and engineering insights to drive innovation for P&G's Fast Moving Consumer Goods business. She also holds responsibility in P&G's Fabric & Home Care Sector for Measurement and Digital Data Sciences and Modelling Capability.

Fiona has a PhD in organic chemistry from Sheffield University and has 30 years industry experience, starting off in Pharmaceuticals then moving to P&G where she has worked in various product development roles in the UK, USA and Germany.
