Jo Craig - GSK

Jo Craig is currently Vice President of Technology and Strategy at GlaxoSmithKline (GSK) within Platform Technology and Science, R&D. In this role she has both an internal focus on technical delivery for GSK, whilst also leading the Technology and Innovation work-stream of the Medicines Manufacturing Industry Partnership (MMIP) – a partnership set up jointly by Pharma and UK Government to ensure the UK is recognised as a world class, advanced centre for medicines manufacturing. Additionally Jo is Board Observer for biotech companies NeRRe and KaNDy, and is a board advisor for the Academy of Pharmaceutical Scientists (APS).

Jo has held a variety of positions in over 30 years at GSK with recent roles including global leadership for 'Process Robustness and Second Generation' (scale up and transfer of ground-breaking new manufacturing technologies applied to commercial assets), global Head of New Product Introduction Quality group and Site Head for GSK's R&D site at Ware.

GSK is one of the world's leading research-based pharmaceutical and healthcare companies. GSK aim is to improve the quality of human life by enabling people to do more, feel better and live longer. Jo was educated at the School of Pharmacy, University of London and is a qualified Pharmacist.
