

The Beilby Award 2017

Apply by 16 January 2017

The Beilby Medal and Prize are awarded annually to a scientist or engineer to recognise substantial work of exceptional practical significance in chemical engineering, applied materials science, energy efficiency, or a related field. Preference is given to candidates in the early stages of their careers.

The prize of £1,000 will be presented together with a medal. Applications should be made online and references sent to SCI.

This award is sustained by a Trust Fund commemorating Sir George Beilby FRS (1850-1924) who was President of SCI (1898-99), the Institute of Chemistry (1902-12) and the Institute of Metals (1916-18) and founding Chairman of the Fuel Research Board. It is administered in rotation by the Institute of Materials, Minerals and Mining (IOM³), the Royal Society of Chemistry, and the Society of Chemical Industry (SCI).

The selection process of the 2017 Beilby Medal and Prize winner is being administered by SCI.

Nominations for 2017 are now open.

Applications should be made online by 16 January 2017 at <http://bit.ly/Beilby>

Enquiries and references should be addressed to awards@soci.org
