

Construction Materials Young Researchers' Forum

Thursday 17 May 2012

SCI HQ, 14-15 Belgrave Square, London SW1X 8PS

09.15 for 09.45 AM start

Come and join our meeting for early career scientists and engineers working in the field of construction materials and hear an interesting range of talks given by research students and recent industry appointees. This will be a great opportunity to speak to a friendly audience of young researchers, increase your understanding of how skills and facilities are distributed across the country and learn more about the organisations hosting the event and their roles in research and industry.

Programme Highlights
