- 16.30** Close of meeting

An electronic copy of the draft BS 10175 standard will be made available to all attendees prior to the event.

Organisers

K. Clive Thompson, ALcontrol Laboratories
Charlotte Armstrong, BSi

Synopsis

The management of contaminated land involves identifying risks arising from the presence of contaminants, in order that appropriate action can be taken.

This event is intended to present a background to the development of the revised and updated standard. Feedback will be elicited from those attending the event in order to supplement the documented returns from the public comment stage of the standardisation process. Such feedback will form a vital step in the document development prior to publication. The revised and updated BS 10175 standard will provide comprehensive guidance to aid the investigation of all potentially contaminated sites. It also applies land with naturally enhanced concentrations of potentially harmful substances.

With thanks to our supporting organisations BSI, Yorkshire Contaminated Land Forum, Association of Geotechnical & Geoenvironmental Specialists and Chartered Institute of Environmental Health

Exhibition

A small number of exhibitor places are available at this event. If you are interested in this opportunity, please email conferences@soci.org for further information and fees.

Attendees

The event will be of interest to all stakeholders involved with potentially contaminated land such as landowners; developers; builders; local government and other regulators; environmental health officers; environmental consultants and laboratories; planners; lawyers; organisations involved in on-site and test kit measurements.

Information on SCI

SCI is an international, independent charity whose remit is to promote the application of science for the benefit of society.

SCI is the publisher of many well respected journals and industry leader Chemistry & Industry magazine (C&I). SCI can offer a network of contacts spanning education, science and business, an in-depth knowledge of chemical related industries together with a rolling programme of conferences, awards and scholarships to help further knowledge and support those involved in the sector no matter what stage of their careers.

For more information on the benefits of joining SCI please go to www.soci.org/membership
