Synopsis

This annual one-day meeting, now in its 19th year provides a unique opportunity for younger chemists to showcase their industrial research to an external audience.

This meeting is of particular interest to industrial chemists who can discover what their contemporaries do in other branches of the industry, through offering a window into other areas of research. Prizes will be awarded for the best talk and to two runners-up, as judged by the organising committee.

In addition to the participants' lectures, a lecture from an experienced, high profile industrial figure is included to conclude the proceedings. This year, Dave Tapolczay CEO, MRC Technology will give the plenary lecture.

Information on SCI

SCI is an international, independent charity whose remit is to promote the application of science for the benefit of society.

SCI is the publisher of many well respected journals and industry leader Chemistry & Industry magazine (C&I). SCI can offer a network of contacts spanning education, science and business, an in-depth knowledge of chemical related industries together with a rolling programme of conferences, awards and scholarships to help further knowledge and support those involved in the sector no matter what stage of their careers.

For more information on the benefits of joining SCI please go to www.soci.org/membership
