

# Candidates Nominated for Election at the 136th SCI Annual General Meeting

Below are the details of candidates who have applied for vacant positions on SCI's Board of Trustees and its Standing Committees.

## BOARD OF TRUSTEES

### Ordinary Members of the Board of Trustees

#### **Dr Leonard Copping**

A Committee member since 1979: Vice-chair of Agrisciences TIG; Chair of MAC; member of FIAC; Trustee; Evening Lecture organising committee member; Member of Executive Editorial Board of Pest Management Science.

SCI is unique in its position, make up and role. It is important to ensure that it functions for the benefit of its members and remains relevant, effective, scientifically robust and innovative. Trustees must ensure that these standards are maintained. BoT determines the strategies to be adopted and ensures that these are carried through. As the leader of SCI governance all members must act with honesty and integrity. This I have always done.

SCI must strive to restore its position as a meaningful voice covering all aspects of chemistry and related sciences for the public good. It must ensure that it becomes a first stop for those seeking to advance science nationally (and internationally); it must become a 'must-join' society for scientists of all disciplines; it must continue its outreach programmes; it must show vision and innovation; it must support its members and their Groups; it must support its learned publications. It is the role of Trustees to make these things happen.

There are three options for voting this year:

1. Voting by post
2. Online voting
3. Vote in person at the Annual General Meeting

**Monday 26 June**  
**Wednesday 28 June**  
**Wednesday 5 July**
