CONFERENCE THEMES

Structural Studies Carbon Capture and Storage Sustainability **Fundamental Mechanistic Studies** Pollution Control and Waste Treatment and Studies and **Environmental Novel Materials** Ion-Exchange Selectivity Hydrometallurgical Applications **Applications** ION-**EXCHANGE** Catalysis **FOR A** Industrial Metal Ion Separation Chemical **Industrial SUSTAINABLE Processing** Water **Chemical Processing** Power Plant Water Treatment **FUTURE** and **Treatment Engineering** Process Design **Nuclear Applications Biotechnology** Plant Equipment Potable Water and Bioprocesses Biomanufacturing **Pharmaceutical Applications**

CONFERENCE TOPICS

Bioprocessing

Food Manufacture

Bioseparation
