ABOUT THE SOCIETY OF CHEMICAL INDUSTRY

SCI is a global network of innovators, formed in 1881 by prominent scientists, inventors and entrepreneurs of their day, who went on to form the companies, processes and products that have propelled society forward ever since. At its centre an active community provide a melting pot of ideas that support and grow the scientific sector for the good of society. SCI's work spans across a diverse range of areas including agrisciences, colloid and surface chemistry, construction materials, electro- chemical technology, AI and digitalisation, fine chemicals and innovation.
