

Day of Science and Careers Scotland 2016 Made in Scotland: Applied Research and Manufacturing

Tuesday 31 May 2016; 10:00 - 17:00

University of Strathclyde, Glasgow, Scotland

Calling Undergraduates and Postgraduates – join us for the Day of Science and Careers Scotland 2016, a special event targeted at early career people. This is the perfect opportunity for early career scientists to meet with people working in the manufacturing industries (in particular the food and drink, industrial biotechnology, personal and household care industries) across Scotland, and start developing their career. An exciting and diverse range of speakers has been selected to talk about their experiences working in industry, SMEs and research institutes. This year's event features the theme; *Made in Scotland: Applied Research and Manufacturing*.

Talks will include the following areas:

- ▶ Chemical Industry
- ▶ Personal Care Products and Pharmaceuticals
- ▶ Food Industry
- ▶ Environmental Care Technologies
- ▶ Scottish Seaweed Industry
- ▶ Bioprocessing Industry
- ▶ Opportunities in Research Institutes
- ▶ Being a STEMNET Ambassador
- ▶ Skills for Research and Industry

For the full timed programme and to book online please visit: <http://bit.ly/DoSCS16>.

There will be several networking opportunities during the day and we encourage you to visit the exhibitors' area during the lunch and tea breaks and meet with potential recruiters. The event will conclude with a drinks and nibbles reception, which will give you another chance to see the exhibition area and to chat to our speakers and fellow delegates in an informal setting.

The event is FREE to attend, is open to members and non-members and includes lunch and refreshments. Places are limited so early registration is advisable.

Book today!
